Summary

Patient-oriented Nurse with 11 years of diverse experience in direct patient care, staff supervision and department operations. Skilled at multitasking and prioritizing patient needs and daily assignments. Seeking position as an RN in which I can contribute my client centered care approach, effective communication and interdisciplinary teamwork skills to positive therapeutic outcomes for patients and their families.

Experience

Saint Elizabeth Health & Staffing Solution Agency Relief Staffing Team RN (Contract) | September 2022 - Present

- Provided Nursing care on multiple floors which includes respirology, cardiology, nephrology, rehab
- Provide safe, competent, and ethical care, just as staff nurses do.
- Clearly identified status as agency staff and accountable for actions in any setting.
- Behaved ethically
- Engage professionally, upholding public trust, and collaborating with regular staff—even providing mentorship or support when possible
- Conduct comprehensive assessments to evaluate patient needs and develop tailored care plans.
- Maintain accurate documentation in compliance with healthcare standards and regulations.
- Facilitate admission and discharge processes, ensuring all paperwork is completed efficiently.
- Demonstrate a thorough understanding of daily nursing practices and protocols.
- Supported patients with activities of daily living and mobility.
- Act as a liaison between patients and healthcare providers to ensure clarity of treatment plans.

William Osler Health System, Brampton Civic Hospital Hemodialysis RN | 11/2017 - 11/2021

- Preparing and updating nursing care plans.
- Promptly notifying the appropriate medical practitioner of any problems that occur during dialysis treatments.
- Working with the dialysis technicians to ensure that dialysis machines and equipment are set up correctly.
- Teaching patients and their family members how to operate home dialysis machines should they decide on home dialysis therapy.
- Educating patients on dialysis treatment options, kidney disease management, as well as suitable nutrition and exercise regimens.

Niagara Healthcare Limited | Saint Catharines, ON Nephrology/Medical Nurse | 09/2016 - 10/2017

- Providing patient care to patients from OR, ER, PCU and ICU; experienced in low to high acuity levels in patients
- Demonstrating ability in managing critical situations and making decisions
- Performing assessments; providing intravenous therapy; complex wound care; monitoring various drainage devices
- Working with patients in all stages of chronic renal failure
- Handling patients with kidney disease, renal failure issues, kidney stones and other kidney associated disorders
- Performing Charge Nurse duties as needed
- Managing clinical and support staff in patient care
- Responsible for discharge planning and followed infection control procedures.

Saint Elizabeth Home Healthcare | Brampton/Burlington, ON

Visiting RN | 01/2014 - 09/2016

- Providing excellent skills in IV, PICC & CVP lines, surgical/trauma wound, nephrostomy tubes, trachostomy, urinary catheters, NG tubes, G tubes, chest tubes, Oxygen therapy and ostomies
- Performing independent health assessments of individuals and families by evaluating their physical, mental and social and environmental health status; and provide nursing intervention based on assessment of need
- Make skilled nursing observations and assessments of client health care status by monitoring and documenting vital signs, presence of edema, heart and lung auscultation, blood and urine laboratory values, intake and output, consciousness and orientation levels; by completing a health history and evaluating living arrangements
- Provide case management for clients by developing care plans, consulting with other health care providers such as physicians and social workers, referring clients to other healthcare professionals
- Health care resources, participating in team meetings, coordinating health care services provided by ancillary personnel such as home health aides, and instructing clients and families on methods of positive health maintenance; initiate and conduct interdisciplinary conferences
- Intervene in emergency situations by notifying proper authorities such as police, physicians, child protection agencies and personnel in medical facilities/emergency rooms
- Provide health education and consultation services to community members, clients and family on a one-to-on basis through home visits, responding to requests for information by phone or in person.
