EXPERIENCE

Ontario Health at Home— *Case Manager*

FEBRUARY 2019 - NOVEMBER 2024

Assessed patient care needs, developed individualized care and service plans, and coordinated delivery to ensure timely access to necessary resources.

Acted as the primary liaison between patients, families, physicians, and healthcare providers to align care plans with patient preferences and healthcare system requirements.

Monitored and reassessed care plans regularly to ensure alignment with patient goals, eligibility requirements, and evolving healthcare needs.

Utilized electronic documentation systems to maintain accurate and timely records in compliance with organizational and professional standards.

Provided education and support to patients and families regarding healthcare legislation, program guidelines, and available services.

VON Sakura House Hospice — *Registered Nurse*

June 2021 - August 2024

Provided specialized palliative care to individuals with life-limiting illnesses, ensuring comfort and dignity in end-of-life care.

Conducted comprehensive assessments and developed individualized care plans in collaboration with residents, families, and interdisciplinary teams.

Administered medications, including pain management interventions, and monitored symptoms to enhance quality of life.

Offered emotional support to residents and families, providing guidance on bereavement and coping strategies.

Ensured documentation met regulatory and organizational standards while maintaining a compassionate, resident-centered approach.

Source Momentum Healthcare — *Contracted Registered Nurse*

June 2016 - MARCH 2018

Utilized clinical judgment and decision-support tools to provide safe, evidence-based care.

Delivered nursing care to residents in long-term care under the supervision of the Director of Nursing.

Administered medications and treatments per physician orders and College of Nurses of Ontario guidelines.

Provided leadership and guidance to unregulated care providers, ensuring adherence to health and safety standards.

Addressed resident and family concerns with empathy, collaborating with healthcare teams to optimize care plans.
