CLINICAL EXPERIENCE

Mennonite New Life Centre of Toronto (MNLCT)

Student Lead – Health for All Partnership (HAP) Clinic

September 2024 – December 2024

- Delivered primary and preventive care services to underserved, uninsured populations, including mental health support, chronic disease management, and health screenings.
- Conducted comprehensive health intakes, documentation of relevant medical information and referrals to social service organizations.
- Empowered clients to improve health literacy and engage in self-care practices through educational sessions.
- Collaborated with an interdisciplinary team to address social determinants of health and improve patient outcomes.

Etobicoke General Hospital

General Medicine

May 2024 – August 2024

- Provided direct patient care, including vital signs monitoring, head-to-toe assessments, medication administration (oral, IV, IM, subcutaneous, and inhalation), and wound care (dressing changes, wound packing, and ostomy care).
- Assisted patients with activities of daily living (ADLs) and provided safe and compassionate patient positioning.
- Documented clinical observations and patient care following hospital policies and best practices.

Brampton Civic Hospital

General Medicine

January 2024 – April 2024

- Conducted comprehensive health assessments, including vital signs and history review, and assisted with patient mobility and ADLs.
- Administered medications safely and performed specialized tasks such as wound care, IV maintenance, and NG tube management.

- Worked collaboratively within a multi-disciplinary team to optimize patient care and recovery outcomes.

McKenzie Hospital

Mental Health Placement

September 2023 – December 2023

- Gained in-depth knowledge of mental health disorders, treatment protocols, and psychotropic medications.
- Conducted mental status exams (MSE), monitored patient behaviour, and documented care plans.
- Supported patients in managing daily activities and provided education on medication side effects.

Native Child and Family Services of Toronto

Community Health Placement

May 2023 – August 2023

- Conducted community needs assessments to identify health priorities and developed educational materials for parents on pediatric health.
- Led health education workshops, including mental health awareness seminars.
- Collaborated with community organizations to promote health equity and access to care.

Humber River Hospital

Geriatrics

January 2023 – April 2023

- Assisted elderly patients with ADLs and personal hygiene, fostering therapeutic relationships to enhance emotional well-being.
- Observed and documented patient conditions, identifying changes and collaborating with the healthcare team on care plans.
- Supported patient and family education and participated in discharge planning.

KEY SKILLS & COMPETENCIES

- Patient-centred Care: Skilled in providing compassionate, evidence-based care to diverse patient populations across various clinical settings.
- Proficient in Epic and Meditech EHR systems, including clinical documentation and order management
- Clinical Assessment: Proficient in performing head-to-toe assessments, vital signs monitoring, and data collection for effective care planning.
- Medication Administration: Safe and accurate medication administration across multiple routes, adhering to established policies and best practices.
- Team Collaboration: Effective communicator with interdisciplinary healthcare teams to ensure patient safety, quality care, and continuity of treatment.
- Mental Health Care: Knowledge of mental health conditions, therapeutic interventions, and the role of medications in mental health treatment.
- Cultural Competence: Sensitive to the needs of diverse populations, with experience working in multicultural settings and advocating for underserved communities.
- Proficient in Microsoft Office Suite.
