## Objective

Dedicated and highly skilled Nurse with over 4 years of experience in Intensive Care and Coronary Care Units. Seeking a challenging position that values expertise and provides opportunities for professional growth and development.

## Professional Summary

- Experienced in providing high-quality care in critical and emergency settings, with a strong background in cardiac care, telemetry monitoring, and advanced life support techniques.
- Adept at assessing and managing complex patient conditions, including rapid response to acute illnesses and trauma.
- Proven ability to collaborate effectively with multidisciplinary teams and communicate clearly with patients and their families.
- Proficient in various nursing procedures and technologies, including mechanical ventilation, CV line insertion, ETT intubation, and arterial line placement.

## Work Experience

### •Personnel support worker(PSW)

(August 2024-December 2024)

Worked with Agency (Apollo Health Care Services )

- Assist clients with personal hygiene, grooming, bathing, dressing, and toileting.
- Help clients with mobility issues, transfers, and positioning to prevent pressure sores.
- Assist clients with medication reminders, administration, and monitoring.
- Prepare meals, assist with feeding.
- Provide emotional support, companionship, and socialization to reduce feelings of loneliness and isolation.
- Respond to emergencies, such as falls or medical crises, and provide basic first aid.
- Monitor clients' vital signs, such as temperature, blood pressure, and pulse.

- Communicate with clients, families, and healthcare professionals to ensure comprehensive care.
- Maintain accurate records of client care, progress, and concerns.
- Provide end-of-life care, focusing on comfort, pain management, and emotional support.
- Support clients with dementia, using specialized techniques to promote communication, safety, and well-being.
- Care for children with special needs, providing developmental support and promoting independence.

•**Cardiac Nurse** (October 2019 – October 2023)

Dayanand Medical College and Hospital, Ludhiana, Punjab, India
