Profile

Registered Nurse with over 8 years of experience providing compassionate care to a diverse range of clients in both community and hospital settings.

Proven ability to manage acute and chronic conditions, with expertise in physical assessment and individualized care plans.

Strong communicator, experienced in working collaboratively with multidisciplinary teams to deliver holistic care.

Adept at self-directing work and handling complex situations with excellent time management and problem-solving skills.

Experience

Qualicare Burlington, Burlington ON - RN (Community Nurse)

2022 - 2024 (Maternity leave 2024)

Provided compassionate, direct patient care in a home setting, ensuring clients receive high-quality services that promote their well-being and peace of mind for their families.

Performed detailed assessments to develop and implement individualized Plans of Care, collaborating with multidisciplinary teams (PT, OT, SLP) to address the full spectrum of client needs.

Administered medications, treatments, and procedures in strict adherence to the provincial scope of practice, ensuring all actions are accurately documented and properly executed.

Maintained high standards of care by supervising staff, ensuring compliance with care protocols, and monitoring client progress through re-evaluations.

Upheld infection control protocols and Universal Precautions to safeguard clients' health and ensure a safe care environment.

Demonstrated strong clinical skills, working independently while providing timely and accurate documentation.

Cultivated positive relationships with clients and families, offering excellent customer service and promoting satisfaction with care services.

Humber River Hospital, Toronto - RN EMERGENCY DEPARTMENT

2020 -2022 (Maternity leave 2021 -2022)

Conducted comprehensive assessments and developed individualized care plans based on patient needs, ensuring appropriate and effective care for both acute and chronic conditions.

Provided high-quality care to patients of all ages, including critical care interventions and emergency procedures, in a fast-paced and high-pressure environment.

Administered medications via IV, oral, and injections as per physician orders, ensuring accurate and timely delivery of treatments.

Assisted physicians in various medical procedures, including conscious sedation and casting, ensuring patient comfort and safety throughout the process.

Collaborated with a multidisciplinary team of physicians, technicians, and other healthcare professionals to provide coordinated, holistic patient care.

Offered emotional support and counseling to patients and their families during stressful situations, ensuring comfort and addressing concerns as needed.

Documented all patient interactions, treatments, and observations accurately and in a timely manner in compliance with hospital protocols and standards.

Bnai Zion Medical Center, Haifa (Israel) — RN Emergency Department

2012 - 2017

Assessed and managed a variety of patients ranging from acute to chronic conditions, developed and maintained an individualized plan of care for each patient.

Developed and maintained an individualized plan of care for each patient.

Implemented strong interpersonal skills by quickly establishing trust with clients and families, as well as successfully collaborating with members of the interdisciplinary team to provide quality patient centered care.

Demonstrated excellent clinical skills in a critical care environment, and effectively treated patients with chronic conditions.

Received positive performance reviews for leadership skills as shift supervisor by applying excellent organizational skills, handling and supervising patient assignments and promoting patient centered care according to guidelines
